Education

Alvas Institute of Engineering and Technology, Moodbidri (D.K) Computer Science and Engineering Bachelors	2023-Pursuing CGPA: 9.22
Govt PU College, Ankola (U.K) PUC	2021-2023 Percentage: 87.77 %
V.K Highschool, Ankola (U.K) SSLC	2018-2021 Percentage: 95.36%

Technical Skills

Programming Languages: Java, Python, HTML, CSS,
JavaScript
Tools / Platform: VS Code, Git, GitHub
Database: MySQL

Projects

1. AI Powered Resume Analyzer

Tech Used: Python, PyPDF2, NLTK, Regex

Purpose: A web app that extracts and analyzes resume content, compares it with job descriptions, generates a score, suggests improvements, and identifies matching skills

2. Hand Gesture Recognition System

Tech Used: Python, OpenCV, MediaPipe

Purpose: Detects real-time hand gestures using a webcam to control actions.

3. QR Code Generator

Tech Used: Python, qrcode Library

Purpose: Generates QR codes from text or URLs for easy sharing.

4. Password Generator

Tech Used: Python, Random, String

Purpose: Creates strong and secure random passwords for users.

5. To-Do List Application

Tech Used: Python, Tkinter (or Console-based)

Purpose: Helps users manage and track daily tasks efficiently.

6. Currency Converter

Tech Used: Python, API Requests (or predefined rates)

Purpose: Converts currency values between different countries instantly.

7. Emotion Detection

Tech Used: Python, OpenCV, Deep Learning/FER Library

Purpose: Detects human emotions from facial expressions in real-time.

Certifications

Natural Language Processing Foundation Certification-Infosys Springboard

Identity Governance and Administration-Infosys Springboard

Identity and Access Management IAM - Infosys Springboard

Generative AI: Introduction and Applications-IBM

Human-Centered Artificial Intelligence- Coursera

Software Engineering: Software Design and Project Management- Coursera

Achievements

NPTEL Elite Silver Certification – IoT (78%)

Achieved **Elite Silver** grade in the NPTEL course on **Internet of Things**, demonstrating strong theoretical and practical understanding.

NPTEL Certification – Cyber Security (64%)

Successfully completed the NPTEL course on **Cyber Security**, gaining knowledge of network security, threats, and prevention techniques.

Consistently achieved 9.0+ CGPA from 1st to 4th semester

Maintained excellent academic performance with a **CGPA above 9** across all four semesters.

Interests

Coding and Problem Solving

Building Mini Projects

Exploring New Technologies

Reading and Listening

Participating in Hackathons, workshops and events.
